

Lower School Topic Theme Morning

We have been enjoying learning about our topic 'Where Does My Food Come From?' this term. To celebrate and give our pupils a chance to access the curriculum further, we hosted a food themed morning. This was a chance for pupils to engage in food exploration through their senses and practise social and communication skills. We had four stations set up, the **fruit kebab station** was exciting, where pupils chose what foods they would like on their personalised kebab. This station even encouraged pupils to taste some new fruits. Next, was a **scent station**, where multiple scents were accessible to smell, students were communicating if they liked or disliked the smells. A very exciting station was the **pasta messy play station**. Pupils loved to get involved exploring a range of pasta, while taking part in role play as well. Lastly, we set up a **shopping station**, which was called Otters Local, this was very popular with our young people, they enjoyed roleplaying as a shop keeper or customers, buying a range of food, while experiencing the purpose of money.
